

Datasheet

BTAG25 - Blue Proximity Key Tag (125 kHz)

Product Description

The BTAG25 is a blue PVC tag with a handy metal keyring. It contains a 125 kHz proximity technology RFID chip. This affordable proximity solution is ideal for any standard access control projects.

CDVI offers a variety of access control credentials with different technologies (125 kHz proximity or MIFARE®). You'll find the ideal credentials to meet the needs of your installation. You can also customize our CDVI cards and tags with your own company logo (minimum order of 1,000 units).

Key Features

- CDVI 26-bit encoding (125 kHz)
- Sequential decimal number printed on each tag
- Available in packs of 25

 Certification

 DEEE

 Certification
