including: 26, 33, 34, 35, 36 & 37

Credentials are "passive" -  
Requires no batteries.

Standard 48-Hour Shipment  
Same-Day Shipment Available

**LIFETIME WARRANTY**

**RapidProx<sup>®</sup>** Proximity Clamshell Cards are extremely reliable, affordable and secure. Works with most HID<sup>®</sup> 125kHz readers, so our credentials offer an excellent alternative to the standard OEM brand.

**RapidProx<sup>®</sup>** Proximity Clamshell Cards are designed to withstand harsh environments and accept abuse that other cards of its size cannot endure. Our clamshell card is a standard CR80 size, but offers a thicker, more rugged, molded-plastic housing. A slot hole is provided on the short side of the card for adhering a badge clip, lanyard or other attachment.

**RapidProx<sup>®</sup>** cards contain genuine Atmel products, not clones. Our internal workings are welded, not glued, like other cards on the market. This card boasts a larger antenna which results in a longer read range as well.
