# SECURION

The **Securion** printer is the best solution for personalizing and laminating secure cards at customer-facing counters. It caters to the growing need for security and fraud control and produces cards that will last significantly longer.

Securion comes with a color print module and a laminating station, both operating in dual-sided mode. It takes just one pass to print, encode and laminate a secure card.

THE PRINTER FOR HIGHLY SECURE CARDS

Securion is ideal for delivering secure cards:

- National ID cards
- Driver's licenses
- Secure access control badges
- Health insurance cards

EVOLIS OFFERS A WIDE RANGE OF FILMS TO MEET ALL YOUR SECURITY NEEDS.

PREMIUM PROTECTION

With its one-of-a-kind lamination station, Securion **durably protects** your secure cards. The printer applies **any type of film** over the entire surface of the card - from simple varnish to patch films with ultra-high security custom holograms - for premium protection of your cards. Your cards will last for **years with virtually no wear and tear**.

PRINTING ON PC CARDS

The **Unichroma™ ribbon** used with Securion makes it possible to use direct-to-card printing on **polycarbonate (PC) cards**. These extremely strong cards are used for sophisticated applications requiring a high level of security. The combination of a Securion printer and Unichroma™ ribbons offers an **economical solution** for issuing secure polycarbonate cards.

PROFESSIONAL PRINT QUALITY

Securion comes with a high-performance dual-sided color printing module featuring 300 dpi resolution for **outstanding graphics**. Photos, texts and barcodes are dependably reproduced for **quick visual identification**.

MULTIPLE ENCODING OPTIONS

To meet your specific needs, Securion provides **data encoding options** for magnetic stripe, contact and contactless smart cards. These options can be combined and can be installed on site.

INCREASED PRODUCTIVITY

Securion is designed to issue secure cards **individually or in large runs**. **In a single pass**, your cards are encoded, printed and protected, which **saves you valuable time!**
OPERATING SECURITY

Thanks to the **centralized locking system** that prevents access to consumables (ribbons, films, blank cards, rejected cards), password protection as well as a Kensington® security slot, your Securion card issuing system is **safe and secure**.
